

Apprenticeship mechatronics (m/w/d)

We have been successfully training apprentices at our Teufenbach-Katsch site in the Murau district since 1978! Today, more than half of our production team consists of former apprentices. To strengthen our teams in Teufenbach-Katsch, we are always on the lookout for young, motivated people with technical understanding and manual skills!

Our mechatronics engineers breathe life into metal products with the help of electrotechnical and IT components. They assemble them into a functioning system and program and operate them.

As part of your initial training, you will learn metalworking techniques such as turning, milling and welding as well as how to program and operate CNC machines. A special focus is placed on automation technology. In addition, manual activities will be deepened in cooperation with the Fohnsdorf training center.

WHAT WE OFFER

- / Top training.
- / Attractive working hours. (Monday to Friday 05:40 to 14:00)
- / Bonuses for excellent and good results at vocational school.
- / Numerous opportunities for further training.
- / Regional and supra-regional purchasing benefits through a benefits club.
- / A provision for the future.
- / Organization of car pools.
- / A familiar working atmosphere.
- / Ecological contribution.
- / A job with a future.
- / A gross salary of €785.01 per month in the first year of training.

WHAT YOU OFFER

- / A positively completed school education. (compulsory schooling or higher)
- / Basic technical understanding.
- / Clean, precise and reliable work.
- / Quick comprehension, ability to work in a team and willingness to learn.

During your 3 ½-year apprenticeship, you will develop into an absolute all-rounder in our company. You will not only learn how to turn, mill and weld, but also electronics, IT and programming.

DO YOU WANT TO BECOME PART OF OUR TEAM?

We look forward to receiving your application by e-mail to career@ibs-austria.com
