

Application engineer (m/f/d)

Papertech is the industry-leading machine vision system supplier for a range of web-based production lines. There are now over 1.600 installations in more than 60 countries. Papertech's unified platform, combining event capturing (WMS) and web inspection (WIS) into a single non-proprietary platform, helps paper, tissue, board and pulp producers around the world optimize their paper quality and production efficiency. IBS Papertech GmbH and Papertech Inc. are part of the IBS Paper Performance Group.

WHAT WE OFFER

- / The challenge of incorporating your expertise and commitment into a varied range of activities and growing together with us
- / company cell phone and laptop
- / Flexitime work with adaptation to individual needs
- / Work location: Teufenbach / Graz (TU Campus Inffeld) with option to work from home
- / Gross monthly salary of at least €3,000
- / Increased pay depending on qualifications, performance and professional experience

WHAT YOU OFFER

- / Interest in understanding complex technical systems / plants in their entirety (here: paper machines). This includes: Mechanics, image acquisition, sensor and evaluation software, etc.
- / You have completed a relevant degree in process engineering / physics / mechanical engineering / electrical engineering or similar, or you are about to graduate. Alternatively: A BSc degree or HTL degree is also ok if you already want to enter the professional world.
- / You are able to communicate (also with customers)
- / You are willing to learn and receptive and have a good appearance
- / English spoken and written
- / Willingness to travel (for commissioning)
- /

YOUR ACTIVITIES

- / Setup, adjustment and operation of sensors (mainly cameras)
- / Recording and evaluation of data
- / Support in the creation of image processing or AI models (incl. tests) and optimizations
- / Commissioning of sensor systems on paper machines incl. remote maintenance
- / Development of suggestions for improvement at every point of the system chain
