

CAD Design Engineer

(m/w/d)

As PGA Anlagenbau Ges.m.b.H., we specialize in systems and machinery for the processing of raw materials, auxiliary materials, and starch, and are one of the most innovative suppliers in the paper and pulp industry. We have established an excellent market position internationally.

We are part of the IBS Paper Performance Group, headquartered in Teufenbach-Katsch, Austria, the world's unmatched technology leader in paper machine optimization. Nearly all renowned paper manufacturers worldwide rely on our expertise and use our products daily.

Our offer

- / The opportunity to contribute your expertise and commitment to a diverse range of tasks and grow together with us
- / Flexible working hours
- / Agile working methods within a young team
- / Gross monthly salary starting from €2,727.40 (38.5 hours/week)
- / Willingness to overpay depending on qualifications, performance, and experience

Your profile

- / Completed technical education
- / Knowledge of Creo Parametrics is an advantage
- / Ability to work in a team & flexibility
- / Strong communication skills
- / Customer-oriented mindset
- / Technical training
- / Willingness to travel domestically and internationally

Your responsibilities

- / 3D CAD design in the field of paper and chemical plant engineering
- / Preparation of machine design plans, detailed workshop drawings, bills of materials, piping plans, tank designs, steel structures, equipment design, special constructions, flow sheets, and layout planning
- / After a successful onboarding phase, and depending on your interest and commitment, the role can develop towards project execution and project management, offering opportunities for personal and professional growth within our team.

We look forward to receiving your application via email at: office@pga.co.at
