

Machining technician for boring mill TOS 10 (m/f/d)

As Maschinenfabrik Berger, we are the specialist in all areas of stainless steel processing in Murtal and have been a reliable employer since 1915. We process more than 1,000 tons of stainless chrome-nickel steel every year and, as part of the IBS Paper Performance Group with its headquarters in Teufenbach-Katsch, we serve customers all over the world.

What we offer

- / Flexible working hours.
- / A wide range of career opportunities.
- / Familiar working atmosphere.
- / Secure employment.
- / Possibility for additional income.
- / Purchasing benefits through advantage club.
- / Retirement provision.
- / Health promotion by company doctor.
- / Further training opportunities.
- / Ecological contribution.

What you offer

- / Completed vocational training in the field of metal technology, ideally machining technology or mechanical engineering technology.
- / Willingness to work 3 shifts. (if the order situation requires it)
- / Experience in milling is an advantage.
- / Experience in program creation (Heidenhain iTNC530 ,TNC 426M) is an advantage.

Deine Aufgaben

- / Reading drawings independently.
- / Independent set-up of the machine.
- / Programming directly on the machine.
- / Production of individual parts and small batches.
- / Measurement of the workpieces and quality documentation.
- / Optimization of ongoing production.

The position offers a minimum wage as a skilled worker without previous service in D/0 = € 2784 gross per month. A higher salary is possible depending on specific qualifications and professional experience.
